

ASSEMBLY SOLUTIONS

Production Supplies

Production Equipment

A leader in ESD safety, with a broad depth of products including anti-static wrist straps, table mats, ESD footwear and test equipment. Intelligent ESD ionizers.

Austin American Technology – Batch, Inline, Stencil, and Solvent cleaners

Cleaners/Degreasers, Dusters, Freeze Spray, Solderwick®, Wipes, Swabs, Wipes & Swabs, Temporary Solder Mask

Automatic wire processors, wire strippers, wire markers, wiring harness testers

Thermal and UV cured epoxies and bonding, under fill, potting, and damming. Conductive, insulative, and more

GLMS: PCB laser marking
GSR1200: Twin table semiautomatic sawing depaneler
ESR1000: Standalone semiautomatic router depaneler

Manufacturers of precision tweezers, pliers, cutters, and other small assembly hand tools

High mix – low volume pick and place equipment. Auto-loading, auto-splicing, variable tube/stick configurations

Soldering, desoldering, BGA and rework equipment, fume extraction **ROHS compliant**

Lead cutting & forming equipment, BGA re-balling systems, depaneling equipment

Supplier of lead free, no-clean, and water soluble solder pastes, fluxes, bar solder, solder preforms

Electric screwdrivers, programmable controllers, SmartMotion torque arms, Torque Testers

LED and UV magnifying lamps, task lighting, microscopes

making workspace work*
Production benches, adjustable and modular workstations, vertical space integrators, cabinets and wall storage systems

Stentech is at the forefront of the next generation of stencils, Electroformed Stencils, with more than ten years of research and development.

The Future in Focus ✓
AOI (Automated Optical Inspection) machines for printed circuit boards and X-Ray automated inspection machines. 3D SPI (Solder Paste Inspection)

Precision cleaning products for all PCB and stencil cleaning applications in the electronics industry

Flexible and high volume selective solder machines, wave solder machines, reflow ovens
